

RARE.

Yes... We've Got

# GREAT COWS TOO

RARE.

The Roseda foundation females were selected primarily from three herds, Gardiner Angus Ranch, Spring Cove Ranch and Wye Angus. We selected females from productive cow families with emphasis on carcass EPDs. Most were stacked two to three generations deep with foundation carcass sires such as Sleep Easy, Scotch Cap, Independence, 5204, Ambush and Direct Drive. We then bred and flushed these cows to 036, 323, Expo, 365, 216 LTD and 6148 to produce the next generation of Roseda females such as those featured in this ad.

*Roseda Miss Madge 036 9702* is one of our "home grown" honors. She stacks three generations of proven carcass sires on top of a Pathfinder cow from the Wye Plantation. Her GT Expo bull calf is in our sire evaluation program with calves due next spring. We have calves on the way by SVF Hi Road and Generation Band 505. She will calve this spring to RP 3RD Bushwacker.

**Roseda Lottie Design 9823** is among our best carcass EPD cows. She weaned an outstanding GT Expo bull calf, was flushed to Rockin D Ambush and rebred to the high marbling bull LLR 6148 F066. Her 216 LTD yearling heifer, J072, is the result of an IVF (In Vitro Fertilization) collection as a heifer.

The two latest acquisitions to our donor herd are **B/R Ruby of Tiffany 9256** owned with Rishel Angus, and **Summitcrest Beauty J349** owned with Rishel Angus and Kado Angus. 9256 is sired by 216 LTD out of a full sister to B/R New Design 323. We will have calves sired by Generation Band 505, JLB Exacto and RP 3RD Bushwacker. J349 is sired by Summitcrest Perfection out of a Sleep Easy/6148 dam. She will calve this spring to 323.

This should give you a feel for our commitment to the improvement of carcass characteristics in Angus cattle. We firmly believe that Roseda is the most concentrated source of superior carcass genetics in the world. But don't take our word for it. Give us a call or better yet, come by for a visit.

If you would like to contract for some high carcass embryos for your herd, contact us for a list of available donors. You won't be disappointed.
