

# Yes...We've got... Great Cows Too!

## Roseda Farm

If you've followed our advertisement campaign for the last year or so, you've noticed our emphasis on our three herd bulls pictured on the opposite page. We feel that these are breed-changing bulls with outstanding carcass merit and balanced production traits. They are bulls that can increase profit potential in all segments of the industry.

However, we've got great females too! Two of our top donors are featured here. N010 is a Roseda Designed daughter. She weaned her first calf sired by Marbull Design with a ratio of 125! She is rebred to Future Direction. The Roseda Designed daughters are making nice cows and the Marbull Design matings are hard to beat.

M024 is an own daughter of 036 out of a Summitcrest Perfection daughter. She was flushed as a heifer and then weaned her first calf sired by 0H29 with a ratio of 124 before going back in the flush program. We used a son sired by Marbull Design for natural service this past year. She is rebred to Roseda Designed.

We will be showcasing these donors and two others in the Virginia Beef Expo Angus Sale on April 13. We will have consignments in the Maryland Angus Sale as well on May 13. In addition, we have spring and fall calving females for sale at private treaty on the farm. Bulls are available for immediate delivery. Please visit our Web site or contact us for additional information. Better yet, schedule a personal visit to the farm.

Visitors Welcome!
